

ERASMUS+ PROJECT MEETING

22nd – 24th October 2019

This week our school hosted teachers and students from our partner schools in Italy, Hungary, Finland and Spain as a part of the Erasmus+ project entitled »Conflict Management in European Schools«.

Tuesday morning was reserved for the welcoming performance Thumpy the Dragon and some Slovene songs performed by our school choir. After the performance it was time to get to know each other through social games. After lunch everyone went on to explore our capital city with the help of a mobile app Actionbound.

Wednesday was a day reserved for sightseeing, so they embarked on a journey through the Carst underworld in Postojna cave and the Predjama castle. In the afternoon we all became more acquainted with gender inequality and discrimination in general.

On the last day the students travelled back in time and had a class in the 19th century, and took a ride up the castle hill. The time travelling brought them back to the 21st century in the evening when it was time for the farewell party.
